## CURRICULUM VITAE

# AMY WOOD

HIPAA EDUCATOR & BREACH  
MITIGATION CONSULTANT  
HCISPP, CHSP, CHSA

### PROFILE

Amy Wood is President and HIPAA Mitigation Specialist of ACS Technologies. She heads up the Compliance and Risk Management Division at ACS; where she consults with healthcare practitioners and Business Associate vendors both before and after a Data Breach. Amy helps minimize the damage after a data breach and implements proactive compliance programs into existing workflows.

*Amy takes dry and often confusing material and creates educational material that is entertaining and meaningful to small practices.*

## EXPERIENCE

Under Amy's leadership, ACS Technologies, LLC has garnered a reputation as a complete solution for HIPAA Compliance. Their IT security suite, Risk Assessment, and documentation have helped numerous practices pass HIPAA audits and data breach investigations.

As a member of InfraGard Cybersecurity Group, a joint task force with the FBI and the private sector, Amy aides to address security in critical Industries, such as healthcare.

Amy has been named to the 40 Under 40's "One To Watch" by North Bay Business Journal twice, served multiple terms as a board member of the Dental Integrators Association, and maintains an active role with Infragard.

As a Continuing Education Provider, Amy educates private practice and clinics individually, as well as dental associations, study clubs, disability groups, and other assemblies.
